Universal Endsheets

(patent pending)

Make Hardcover Books Using a Perfect Binder

This endpaper consists of two pieces of high strength endleaf held together with a cambric cotton fabric. The fabric will reinforce the hinge of the resulting hard-cover book and the individual sheets will be adhered to the front and back cover board.

- Simple to apply with the cover feeder on your perfect binder.
- Wraps the spine from endsheet to endsheet and supports from head to tail.
- Offers two paste down sheets for easy casing-in.
