Adirondack® features a rich, kidskin leather embossing with a gloss finish on both sides. This high-strength, kraft-based material provides stiffness and durability for a range of document and presentation cover applications. An aqueous coating on both sides provides resistance to moisture and staining. Adirondack® is well-suited to foil stamping and silk screening, and readily accepts die cutting, scoring and folding, and exhibits good hinge characteristics.

**Samples available  
upon request**
