

BP280

NEW FEATURE!

The LBS production team now has the ability to mark the head or foot of your slit capping materials with a line of color. This new feature will reduce orientation issues when feeding book blocks into your casing-in machine and will eliminate the need for you to mark your capping materials with a pen or marker.

Construction 40# white bleached creped kraft

Origin Manufactured in the USA

Standard Width 53.5" (135.89 cm) Width;
3" (7.62 cm) ID standard cores

Converting Full-width rolls, slit rolls, and cut-sheets

Adhesive/Glue Acceptable gluing includes: Protein, Polyvinyl Acetate (PVA), Polyurethane (PUR), and Hot Melt

Suggested Uses Yearbooks, Scholarly Editions, Reference Books, Photo Books, Monographs, Coffee Table Books, Art/Architecture Books, On-Demand, Stationery, Trade Publications, Religious Publishing, Notebooks, Manuals

BP280 is our 40# bleached-white, creped kraft backlining material. Because it is white, it will not show through lightweight endpapers. It can also be used as a headband carrier for automatic casing-in machines as well as Otabind.
