

GP2R

NEW FEATURE!

The LBS production team now has the ability to mark the head or foot of your slit capping materials with a line of color. This new feature will reduce orientation issues when feeding book blocks into your casing-in machine and will eliminate the need for you to mark your capping materials with a pen or marker.

Construction 100% cotton

Specifications FSC® certified

Standard Width 40.5" (102.87 cm) Width;
3" (7.62 cm) ID standard cores

Converting Full-width rolls, slit rolls, and cut-sheets

Adhesive/Glue Acceptable gluing includes: Protein, Polyvinyl Acetate (PVA), Polyurethane (PUR), and Hot Melt

Suggested Uses Yearbooks, Scholarly Editions, Reference Books, Photo Books, Monographs, Coffee Table Books, Art/Architecture Books, On-Demand, Stationery

BOOKBINDING

This unique material combines capping paper and a super-like fabric that reinforces the book block from head to tail while capping the spine. This combination saves you money through the elimination of a workstation and reduction of inventory. Recommended for book blocks less than 1.5" thick.

PACKAGING & STATIONERY

The unique look of this natural open weave material laminated to a thin paper makes it a great choice for custom projects.

Samples available upon request

100% employee-owned
