

cloth cover materials

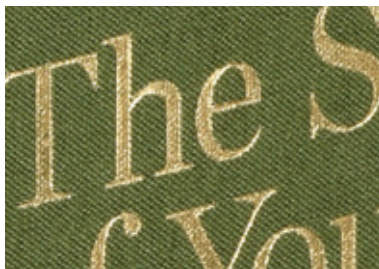

LBS' cover material collection includes a wide variety of colors and finishes. Our cloth cover materials are perfect for books, luxury packaging, journals, stationery, and more. Choose from over 1,000 colors with over 300,000 yards in inventory...ready for immediate shipping!

Samples available upon request

COATED MATERIALS

Our extensive collection of coated cover materials include durable, classic book cloths as well as innovative woven materials with an elegant sheen. The coating protects the cloth and allows for heavy-duty applications as well as uses in various environments. A coated surface decorates beautifully with most print options, foil stamping, and embossing/debossing.

NATURAL MATERIALS

The woven texture of our natural cover materials creates a unique look and feel. These tactile materials are ideal for book and packaging projects with an emphasis on a natural appearance. These collections showcase the raw beauty of the woven threads without compromising on decorating techniques or color options.
