RENATURA® redefines bonded leather through an innovative manufacturing process that transforms recycled leather fibers into a premium covering material with exceptional natural character. Color-controlled recycled leather fibers are embossed under high pressure, replicating the authentic texture and depth of fine genuine leather without the use of pigmented finishes. The result is a distinctive, economical material that offers outstanding quality, durability, and visual appeal. Produced in Valencia, Spain, RENATURA reflects LBS' commitment to sustainable innovation by giving new life to recycled leather while delivering a beautiful, environmentally responsible cover material.
