

leather cover materials

Leather cover materials offer the timeless beauty, character, and craftsmanship of genuine leather with a range of textures, finishes, and price points to suit virtually any project. From luxurious bonded leathers and premium recycled leather fibers to innovative embossed finishes, LBS' leather collection delivers exceptional durability and sophisticated appeal for books, albums, journals, menus, luxury packaging, and more. Enhance your designs with materials that emboss, deboss, and foil stamp beautifully.

Samples available upon request

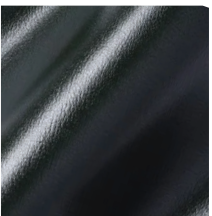

EUROBOND®

The most sophisticated of Cromwell's bonded leathers, EUROBOND offers the authentic look, feel, and aroma of fine genuine leather in a selection of distinctive finishes inspired by premium hides.

EXCEL-TAN®

EXCEL-TAN showcases Cromwell's innovative approach to bonded leather with an extensive range of textures and colors that inspire bold, creative designs.

TARATAN II®

Made from 100% cowhide leather fibers, TARATAN II features a rich, elegant appearance, a soft, smooth feel, and a genuine leather aroma, making it ideal for premium books, albums, journals, and luxury packaging.

RENATURA®

Made from recycled leather fibers, RENATURA is an innovative and sustainable bonded leather that delivers the natural beauty and texture of genuine leather in an economical, environmentally responsible covering material.
